

Crosstex Selects Mainsaver

San Diego, CA – April 16, 2018: Mainsaver Software is pleased to announce it has been selected by Crosstex Inc. to manage its Maintenance and Inventory Processes at all of its locations. Crosstex is a major producer of Infection Protection and Control (IP&C) products for the Healthcare Industry.

Mainsaver was chosen to manage both corrective and preventive maintenance processes for production and lab equipment in the Crosstex facilities. Contributing factors to the selection of Mainsaver included the company's strong and successful history within the Medical Devices Industry, and the ability to provide FDA and other regulatory compliance requirements in reference to Asset Management. Following an initial implementation of 3 facilities, Crosstex plans to add up to an additional 9 other facilities as part of a multi-site implementation. A standard data conversion will be part of the Mainsaver solution, for efficiency in building the Crosstex assets list and Preventive Maintenance schedules.

About Crosstex

Crosstex is a recognized leader for its portfolio of Personal Protection Equipment (PPE), Dental Unit Waterline Treatments, Chemistries, Sterilization, Preventives, Nitrous-Oxide Equipment, and Single-Use Disposable products. Crosstex products are sold throughout the world in more than 100 countries. Combine this with 12 strategically located manufacturing & distribution facilities around the world and you begin to understand the broad reach and impact of Crosstex in the healthcare industry.

Crosstex became a wholly owned subsidiary of Cantel Medical Corp. in August, 2005. This relationship has strengthened Crosstex's position in terms of its ability to expand its manufacturing capabilities as well as add to its broad range of products.

About Mainsaver

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an "end to end" solution interfaced to any of today's popular ERP, MRP or financial packages.
